Petroleum & PETROCHEMICAL International

# 1972 Annual Index

presented with the January 1973 issue of Petroleum and Petrochemical International

## Exploration

**ACTIVITY**

Japanese seek oil nearer home . . . Jan. 75
Egypt plans big search to beef up failing output—David Buckman . . . Sept. 60
KSPC's Kuwait oil search enters a crucial phase—David Buckman . . . Dec. 54

**OFFSHORE**

The cost of the North Sea search—A. F. Fox . . . May 40

## Drilling

**ACTIVITY**

Big Saudi oiler gilds open tract . . . Feb. 43
Australia's Cooper firms up as a big petroleum patch—David Buckman . . . Sept. 74

**DEEP WELLS**

World's deepest well nearing target depth—Jack A. Davis . . . Jan. 68
How the world's deepest well was drilled to 30,000 ft—John Kennedy . . . June 63
API seeks more accurate bottom-hole temperatures—Frank Shell and Art Tragesser . . . Oct. 102

**EQUIPMENT**

Drilling control goes to the computer . . . Feb. 60
Husky new jackup will make its North Sea debut this summer—John L. Kennedy . . . May 48
New land rigs were specially designed for Iran—John Kennedy . . . July 64
Rock-bit identification has been simplified—Ed Durrett . . . Aug. 59
Drill string compensator eases offshore drilling problems . . . Sept. 32
Arabia gets new desert drilling gear . . . Sept. 76
Northern North Sea is chief magnet for marine hardware—David Buckman . . . Oct. 70
How drill pipe can be stripped back to bottom successfully—Preston T. Moore . . . Nov. 100

**OFFSHORE**

North Sea drawing huge chunk of oil industry's exploration budget and offshore rig fleet—David Buckman, John Cranfield, Jack Davis . . . May 28
Construction starts on BP platforms for Forties—John Cranfield . . . May 36
New platform design launched for deep North Sea waters . . . May 37
Husky new jackup will make its North Sea debut this summer—John L. Kennedy . . . May 48
Batch of strikes revitalizes the Indonesian search—David Buckman . . . July 30
Australia's Rankin Trend looks good—P. Kaye, G. M. Edmond and A. Challinor . . . July 34
Drill string compensator eases offshore drilling problems . . . Sept. 32
New Italian drillship boasts dynamic positioning . . . Sept. 36
How to handle the North Sea fleet of super-rigs—R. W. Scheffer . . . Sept. 39
How Lloyd's evaluates the oil industry's marine hardware—Edward Crowley . . . Sept. 51
Northern North Sea is chief magnet for marine hardware—David Buckman . . . Oct. 70
North Sea mud loggers' manual—1. Understanding tripgas, and how to measure carbide gas kicks—H. E. Anderson . . . Nov. 54
North Sea continues to head up E. Hemisphere sea search—David Buckman . . . Dec. 30
New drilling platforms are tougher, all-weather units—John Cranfield . . . Dec. 34
Porosity and pressure log performs well in the North Sea—Daniel E. Boone . . . Dec. 36
North Sea fixed platforms design heads toward new era—Rod Martin . . . Dec. 40

**TRANSPORT**

New Italian drillship boosts dynamic positioning . . . Sept. 36

## Production

**EQUIPMENT**

A refresher course in combating well casing corrosion—Alvin C. McCaleb . . . Mar. 44
Here's how Ekofisk production units were designed and installed—M. A. Walker, E. E. Castor and L. J. Marquette . . .
Forties field jackets are world's largest—Jack A. Davis Oct. 80

**EVALUATION**

Gulf Nigerian crude oil . . . June 76

**FIELD OPERATIONS**

Here's how Mobil automated its Libyan Amal field—Roy L. Johnson and John B. Cox . . . Mar. 40
Here's how Occidental conserves associated gas in its Libyan oil fields . . . Aug. 34
Mobil's Nigerian production passes 150,000 b/d . . . June 72
Agip-Phillips production in Nigeria will get five-fold boost . . . June 77
Nomogram determines compressor horsepower—Bill Sisson . . . Nov. 69
Associated gas use in Kuwait being expanded by KOC—David Buckman . . . Nov. 102

**FLOODING**

Marathon's new flooding technique could help revive ailing European oilfields—W. B. Bleakley . . . Feb. 34

**FORECASTS AND TRENDS**

Nigeria races towards 2 million b/d . . . June 72
Egypt gearing up to exploit widespread gas reserves—David Buckman . . . Aug. 54
Egypt plans big search to beef up failing output—David Buckman . . . Sept. 60

**GAS (NATURAL)**

Australia's Dongara gas comes on stream—David Buckman . . . Feb. 52

**OFFSHORE**

Offshore oil output balloons around Congo River—David Buckman . . . April 50
How Forties oil will be produced—T. G. L. Ingram . . . May 39
Danes stand by to receive first offshore crude—David Buckman . . . May 46
Spain gears up for first offshore oil production—John Cranfield . . . May 80
Batch of strikes revitalizes the Indonesian search—David Buckman . . . July 30
Attaka will top 100,000 b/d next year—John Cranfield . . . July 42
Submarine pipe trencher proposed . . . Sept. 44
How Lloyd's evaluates the oil industry's marine hardware—Edward Crowley . . . Sept. 51
Forties field jackets are world's largest—Jack A. Davis Oct. 80
Here's how Ekofisk production units were designed and installed—M. A. Walker, E. E. Castor and L. J. Marquette . . . Oct. 91

**RESERVOIRS**

Shell's reservoir model techniques and field production K. J. Weber . . . Mar. 34

THE PETROLEUM PUBLISHING COMPANY
London, England. Tulsa, Oklahoma, U.S.A.

# Fires

Inert foam cuts risk of tank fires . . . . . Jan. 70

# Measurement

Thermal expansion coefficients need update to combat errors in crude oil measuring—L. Downer and F. A. Inkley . . . . . June 32

# Refining

**CATALYSTS**

How to determine catalyst life in middle distillate Unifiners—M. Embaby, S. Abaza and A. Kotb . . . Oct. 98

**COMPUTERS**

FCC units optimized with mobile van's computer—J. Robert Parsons and A. J. Andrews . . . . . Mar. 80

Computers control and optimise operations in new Mobil refinery—H. A. Schnader and R. Schon . . . Apr. 53

How the Arab world's first process computer was debugged—Dr. S. A. Malaty . . . . . May 54

**CONSTRUCTION**

French refiners head for major capacity expansion—John Cranfield . . . . . May 78

**CRACKING**

FCC units optimized with mobil van's computer—J. Robert Parsons and A. J. Andrews . . . . . Mar. 80

**DISTILLATION**

Middle distillate haze problem solved with molecular sieve—L. Scherbaum and A. Spooner . . . . . Oct. 94

New Japanese processes promise cheaper styrene and xylenes . . . . . Oct. 94

**EQUIPMENT**

Shutdown diesel valve improves safety—John Cranfield . . . . . June 54

Feed preparation unit developed . . . . . June 56

Refinery gets control over 195 tanks . . . . . July 48

Middle distillate haze problem solved with molecular sieve—L. Scherbaum and A. Spooner . . . . . Oct. 94

How to handle the transportation of heavy process equipment—T. A. Arkell and C. R. Swenson . . . . Nov. 51

**INSTRUMENTATION**

South African refinery boasts world's largest control room . . . . . Apr. 47

**MAINTENANCE**

Computers, predictive techniques are on increase in European plants—Jim Morrison . . . . . Feb. 22

Vibration analysis keeps vital equipment on stream—Jim Morrison . . . . . Feb. 26

Belgian refinery was made more efficient by simple planning—Jim Morrison . . . . . Feb. 30

**MEASUREMENT**

Thermal expansion coefficients need update to combat errors in crude oil measuring—L. Downer and F. A. Inkley . . . . . June 32

**NOISE CONTROL**

How to assess process plant noise at the design stage—A. H. Middleton . . . . . June 47

**PERSONNEL**

Training the plant operator—the case for formal tuition—John Smith-Leach . . . . . June 61

**PLANTS**

How to inspect process hardware made from reinforced plastics—J. B. Cowan . . . . . July 69
Aug. 69

**POLLUTION CONTROL**

Shell launches its Claus off-gas desulfurization process—W. Groenendaal and H. C. A. Van Meurs . . . . Sept. 54

**PROCESSES**

BP has developed new residue desulfurization process—L. A. Godsave and M. K. Eyles . . . . . Jan. 73

Shell puts ethylene alkylate process into commercial octane-boosting—R. L. Dickenson and W.S. Reveal Jan. 76

Continuous chlorinated paraffin process is cost and labor saving . . . . . Mar. 87

What are the important factors in cat-reforming? . . . Apr. 42

Solving those important cat-reforming problems . . . May 89

High $SO_2$ removal claimed for new tail-gas desulfurization process—Jim Morrison . . . . . July 44

Shell launches its Claus off-gas desulfurization process—W. Groenendaal and H. C. A. Van Neurs . . . . . Sept. 54

Gulf revamps FCC units with new process—M. C. Bryson, G. P. Huling and W. E. Glausser . . . . . Sept. 66

How to determine catalyst life in middle distillate Unifiers—M. Embabu, S. Abaza and A. Kotb . . . Oct. 98

Present status and future development of high pressure processes—R. Turner . . . . . Nov. 37

Esso Research continuing study of desulfurization . . Nov. 42

Running VGO desulfurization at low pressure cuts costs—A. Nelson Stuckey, Jr. Bert T. Fant, John H. Duir and G. A. Mickelson . . . . . Nov. 96

Three new stack-gas desulfurization routes tried in Japan . . . . . Dec. 56

New Japanese processes promise cheaper styrene and xylenes . . . . . Dec. 64

**REFINERIES**

How Fawley got to be Esso's safest refinery—A. E. G. Groombridge . . . . . Mar. 76

Singapore booms as Southeast Asia's refining center—David Buckman . . . . . Apr. 56

Ryukyu Islands refinery comes on stream—David Buckman . . . . . July 26

How new LP-gas railcar weighbridge works at Fawley refinery . . . . . Oct. 113

Here's how Marathon runs its Wulff furnaces at Burghausen—Ted Wett . . . . . Nov. 32

How Gulf Italiana cured noise during boiler plant startup . . . . . Nov. 84

**REFORMATES**

**How reformate octane numbers vary—W. L. Nelson Feb. 44**

**REFORMING**

How feedstock affects cat reforming . . . . . Mar. 50

**SAFETY**

Esso's Forster is pleased with improved refinery safety May 119

Shutdown diesel valve improves safety—John Cranfield . . . . . June 54

**WASTE DISPOSAL**

New Japanese waste water treatment method cuts costs at the refinery—Tohru Sasano . . . . . June 42

# Natural Gas

**COMPUTERS**

Computer runs gas production and pipelines for Brigitta-Mobil . . . . . Jan. 54

**PRODUCTION**

Australia's Dongara gas comes on stream—David Buckman . . . . . Feb. 52

**STORAGE**

How gas storage costs compare—J. A. Goodwin . . . Feb. 56

Concrete barge proposed for LNG storage and loading offshore . . . . . May 85

How to continuously weld large LNG storage tanks—G. Rosa and O. Bove . . . . . May 105

**TRANSPORTATION**

How to evaluate LNG shipping costs and reliability factors—P. L. L. Vrancken . . . . . Aug. 26

# Petrochemicals

**AMMONIA**

Ammonia process technology: recent advances in large plants—J. A. Finneran, L. J. Buividas and N. Whalen . . . Jan. 66
How a new, horizontal ammonia converter was designed and built—G. P. Eschenbrenner and G. A. Wagner . . . Jan. 62

**PLANTS**

How Shell's olefins plant uses an online information system—W. E. Corbett, E. F. Cooke, J. R. Goehring and M. Sommer . . . Feb. 47
New Japanese ethylene complex can yield 300,000 tons/year . . . Apr. 61
How to inspect process hardware made from reinforced plastics—J. B. Cowan . . . July 69, Aug. 69
How closed loop computer systems can operate an olefin plant—Boyd M. Bergen . . . Oct. 46
New Bombay hydrogen plant has interesting features—S. R. S. Sastry . . . Oct. 64
Here's how Marathon runs its Wulff furnaces at Burghausen—Ted Wett . . . Nov. 32
Olefins—why the biggest plant is not always the best—K. H. Walley and S. J. Q. Robinson . . . Nov. 88

**PROCESSES**

How vinyl chloride and solvents are produced from a single plant . . . Jan. 79
Crude cracking cuts coking in olefin production—Ted Wett . . . May 102
Catalyst aids selective hydrogenation of acetylene—Wilfred Lam and Lawrence Lloyd . . . July 51
New Japanese process produces xylenes ethylbenzene cheaply—G. R. Herrin and E. H. Martel . . . July 74
Variable pressure process developed for methanol . . . Oct. 52
Local control, multi-level systems are emerging in process computerization—W. A. Van Valkenburgh, Jr. . . . Oct. 60
Single-step synthesis of isoprene—Kazumi Takagi . . . Nov. 62

**PRODUCTS**

Czechs take new look at routes for butadiene and vinylchloride—Ivan Placek . . . May 65
Olefins—why the biggest plant is not always the best—K. H. Walley and S. J. Q. Robinson . . . Nov. 88
New Japanese processes promise cheaper styrene and xylenes . . . Dec. 64

**STATISTICS AND SURVEYS**

European petrochemical industry needs greater discipline . . . Dec. 50

**WASTES**

Converted tanker will destroy petrochemical wastes at sea—John Cranfield . . . Oct. 58

# Gas Processing

**NATURAL GAS PRODUCTS**

Europe's natural-gas fields will provide self-sufficiency in helium—John Cranfield . . . Aug. 30
NAM fits hardware to retrieve mercury from Dutch natural gas . . . Aug. 40

**LIQUEFIED NATURAL GAS**

Why Phillips chose the optimized cascade cycle for LNG projects—Harold W. Barker and S. J. Orloski . . . Aug. 46
How to use axial compressors in LNG liquefaction—R. G. Schlatter and C. J. Noel . . . Sept. 87

# Transportation

**PIPELINE CONSTRUCTION**

Longest North Sea gasline laid, ties in Conoco's Viking Field—John O'Donnell . . . Jan. 42
How the frozen plug method found an elusive pipeline leak—R. P. Deplancke . . . Jan. 46
How semi-automatic $CO_2$ welding can assist pipeliners—O. Bove and R. Boekholt . . . Jan. 48
Pipeline contractors' meeting calls for simplified specs—John Cranfield . . . Jan. 51
Panel debate warns against inexperienced contract bidding . . . Jan. 52
Projects . . . Jan. 56
Projects . . . Apr. 62
Projects . . . July 89
Projects . . . Oct. 117

**EQUIPMENT**

How to handle the transportation of heavy process equipment—T. A. Arkell and C. R. Swenson . . . Nov. 51

**INSTRUMENTATION AND CONTROL**

Computer runs gas production and pipelines for Brigitta-Mobil . . . Jan. 54
How computer control operates Mediterranean-Rhone pipeline—G. Bancillon . . . Feb. 63

**OFFSHORE**

Work boat operators all set for northern North Sea—John Cranfield . . . May 51

**PIPELINE OPERATIONS**

Computer runs gas production and pipelines for Brigitta-Mobil . . . Jan. 54
How computer control operates Mediterranean-Rhone pipeline—G. Bancillon . . . Feb. 63
Horizontal wellprinting breaks distance record on UK gasline . . . May 98
How Shell moves viscous oil in water . . . May 100
Giant Iranian pipeline will boost export capacity—John Cranfield . . . July 82
Submarine pipe trencher proposed . . . Sept. 44
Polystyrene insulates ethylene pipelines . . . Sept. 92
New pig design boosts efficiency in Belgian gasline . . . Sept. 92
Projects . . . Oct. 117
Giant lines will feed Dutch and Russian gas to Italy—John Cranfield . . . Nov. 76
Petrochem grid posed complex problems for pipeliners in Italy . . . Nov. 80
New Method cuts pipeline surveillance costs . . . Nov. 92
How the Russians lay large-diameter trunkline . . . Dec. 76

**RAILCARS**

How new LP-gas railcar weighbridge works at Fawley refinery . . . Oct. 113

**STATISTICS AND SURVEYS**

**Pipeline Construction Report**

Jan. . . . 56 April . . . 62 July . . . 89 Oct. . . . 117

**TANKCARS**

Tankcar loading system cuts turnround . . . June 54

**TANKERS**

Freight market suffering from low demand and excess building—Mike Ratcliffe . . . Mar. 56
Double-bottom tankers have economic advantages . . . Mar. 58
Giant vessels on order . . . Mar. 59
Tanker lightening results please Shell, expansion planned—John Cranfield . . . Mar. 62
IHI is building 800,000 ton dock . . . Mar. 64
Mobil holds tanker fire exercise . . . Mar. 69
Variable pitch props aid tanker mobility—Ulf Athlei . . . Mar. 70
Subsea paint may cut drydocking—Capt. A. J. Brown . . . Mar. 72
Japanese plant treats slop oil . . . Apr. 40

**TANKERS AND BARGES**

Norwegian gas tankers employ new design fixtures—John Cranfield . . . June 85
How to evaluate LNG shipping costs and reliability factors—P. L. L. Vrancken . . . Aug. 26
Converted tanker will destroy wastes at sea—John Cranfield . . . Oct. 58
Reliquefaction is becoming essential for gas tankers . . . Nov. 95

**TERMINALS**

Kharg Island terminal getting more export muscle . . . Feb. 40
Oily ballast treatment plant built at Bandar Mah Shahr . . . Apr. 39
BP refinery up-grades oil jetty to handle bigger ships . . . July 88

# Storage

**BARGES**

Java Sea boasts store barge . . . July 32
Novel floating storage unit will operate off Tunisia—J. D. Bax and W. J. van Heijst . . . Dec. 40

**LNG**

Concrete barge proposed for LNG storage and loading offshore . . . May 85
How to continuously weld large LNG storage tanks—G. Rosa and O. Bove . . . May 105

**NATURAL GAS**

How gas storage costs compare—J. A. Goodwin . . . Feb. 56

**TANKS**

Inert foam cuts risk of tank fires . . . Jan. 70
Ekofisk crude tank taking shape in Norway—Jack A. Davis . . . June 68
New design cuts failure rate in floating roof tanks—N. W. Edwards and J. deR. Versteeg . . . Aug. 56, Sept. 78

# Industry Affairs

**THE MONTH**

The Law of the Land . . . Jan. 41
Making it easy for us . . . Feb. 21
Answer the call . . . of the sea . . . Mar. 33
A perspective on pollution . . . Apr. 25
Production landmark passed . . . Apr. 25
But who will man these rigs? . . . May 27
A bonny welcome north of the border . . . May 27
Experiences of a mailman in Kuwait . . . June 27
Time to influence people . . . July 25
A host country that also wants security . . . Aug. 25
The airship may be returning . . . Sept. 31
The case of the missing tank section . . . Oct. 45
Perhaps there never will be a shortage . . . Nov. 31
Participation . . . Dec. 29

**COMPANIES AND CONCESSIONS**

France's Erap will shift emphasis on crude supplies . . . May 87

**ENERGY**

Where North Sea oil fits into the European energy picture—M. M. Pennell . . . Oct. 84
Italy's energy policy set for a radical rethink—Jan. Noordhoek . . . Nov. 70

**MANAGEMENT**

How spider diagrams work as a management tool—Thomas Wood . . . Aug. 63

**OIL SHOWS**

Petrotech is world-wide draw . . . May 95

**POLLUTION**

European oil can handle pollution problems, but costs will rise—B. Rayzacher . . . Apr. 26
Sulfur removal will need massive investment in Europe Apr. 30
Mobil appoints UK environment adviser on air and water pollution in London—David Buckman . . . Apr. 34
Oily ballast treatment plant built at Bandar Mah Shahr Apr. 39
Japanese plant treats slop oil . . . Apr. 40

**STATISTICS**

**Production, European Gasoline Prices**

| | | | |
|---|---|---|---|
| Jan. ..... 91 | April ..... 81 | July ..... 107 | Oct. ..... 138 |
| Feb. ..... 83 | May ..... 123 | Aug. ..... 82 | Nov. ..... 121 |

**WASTE DISPOSAL**

Process converts plastic waste into gasoline and kerosine—Tomoyuki Takesue . . . Apr. 36

# Countries

## Africa

**GENERAL**

The petrochemical feedstock situation in North Africa and the Middle East—George B. Hegeman . . . June 83

**NIGERIA**

Nigeria races towards 2 million b/d . . . June 72
Mobil's Nigerian production passes 150,000 b/d . . . June 72
Gulf Nigerian crude oil . . . June 76
Agip-Phillips production in Nigeria will get five-fold boost . . . June 77

**SOUTH AFRICA**

South African refinery boasts world's largest control room . . . Apr. 47

**TUNISIA**

Novel floating storage unit will operate off Tunisia—J. D. Bax and W. J. van Heijst . . . Dec. 73

**WEST AFRICA**

Offshore oil output balloons around Congo River—David Buckman . . . Apr. 50

## Australia and New Zealand

Australia's Dongara gas comes on stream—David Buckman . . . Feb. 52
Australia's Rankin Trend looks good—P. Kaye, G. M. Edmond and A. Challinor . . . July 34
Australia's Cooper firms up as a big petroleum patch—David Buckman . . . Sept. 74

## Europe

**GENERAL**

North Sea drawing huge chunk of oil industry's exploration budget and offshore rig fleet—David Buckman, John Cranfield, Jack Davis . . . Apr. 28
Sulfur removal will need massive investment in Europe Apr. 30
North Sea supply bases springing up in Scotland . . . May 33
Construction starts on BP platform for Forties—John Cranfield . . . May 36
Europe's natural gas fields will provide self-sufficiency in helium—John Cranfield . . . Aug. 30
How to handle the North Sea fleet of super-rigs— R. W. Scheffer . . . Sept. 39
How Lloyd's evaluates the oil industry's marine hardware—Edward Crowley . . . Sept. 51
Northern North Sea is chief magnet for marine hardware—David Buckman . . . Oct. 70
Forties field jackets are world's largest—Jack A. Davis Oct. 80
Where North Sea oil fits into the European energy picture—M. M. Pennell . . . Oct. 84
Here's how Ekofisk production units were designed and installed—M. A. Walker, E. E. Castor and L. J. Marquette . . . Oct. 91
North Sea continues to head up E. Hemisphere sea search—David Buckman . . . Dec. 30
Porosity and pressure log performs well in the North Sea—Daniel E. Boone . . . Dec. 36
European petrochemical industry needs greater discipline . . . Dec. 50

**BELGIUM**

Belgian refinery was made more efficient by simple planning—Jim Morrison . . . Feb. 30
New pig design boosts efficiency in Belgian gasline . . . Sept. 92

**CZECHOSLOVAKIA**

Czechs take new look at routes for butadiene and vinylchloride . . . May 65

**DENMARK**

Danes stand by to receive first offshore crude—David Buckman . . . May 46

**FRANCE**

How computer control operates Mediterranean-Rhone pipeline—G. Bancillon . . . Feb. 63
French refiners head for major capacity expansion—John Cranfield . . . May 78
France's Erap will shift emphasis on crude supplies . . May 87

**GERMANY**

Here's how Marathon runs its Wulff furnaces at Burghausen—Ted Wett . . . Nov. 32

**ITALY**

New Italian drillship boasts dynamic positioning . . . Sept. 36
Italy's energy policy set for a radical rethink—Jan Noordhoek . . . Nov. 70
Giant lines will feed Dutch and Russian gas to Italy—John Cranfield . . . Nov. 76
Petrochem grid posed complex problems for pipeliners in Italy . . . Nov. 80
How Gulf Italiana cured noise during boiler plant startup . . . Nov. 84

**NETHERLANDS**

NAM fits hardware to retrieve mercury from Dutch natural gas . . . Aug. 40

**NORWAY**

Ekofisk crude tank taking shape in Norway—Jack. A. Davis . . . June 68
Norwegian gas tankers employ new design features—John Cranfield . . . June 85

**RUSSIA**

How the Russians lay large-diameter trunkline . . . Dec. 76

**SPAIN**

Spain gears up for first offshore oil production—John Cranfield . . . June 80

**UNITED KINGDOM**

Longest North Sea gasline laid, ties in Conoco's Viking Field—John O'Donnell . . . Jan. 42
How the frozen plug method found an elusive pipeline leak—R. P. Deplancke . . . Jan. 46
North Sea supply bases springing up in Scotland . . . May 33
Horizontal wellpointing breaks distance record on U.K. gasline . . . May 98
BP refinery up-grades oil jetty to handle bigger ships July 88
How new LP-gas railcar weighbridge works at Fawley refinery . . . Oct. 113
North Sea fixed platform design heads toward new era—Rod Martin . . . Dec. 40

**WEST GERMANY**

Computer runs gas production and pipelines for Brigitta-Mobil . . . Jan. 54

# Middle East

**GENERAL**

The petrochemical feedstock situation in North Africa and the Middle East—George B. Hegeman . . . June 83

**EGYPT**

Egypt gearing up to exploit widespread gas reserves—David Buckman . . . Aug. 54
Egypt plans big search to beef up failing output—David Buckman . . . Sept. 60

**IRAN**

Kharg Island terminal getting more export muscle . . Feb. 40
Oily ballast treatment plant built at Bandar Mah Shahr Apr. 39
New land rigs were specially designed for Iran—John Kennedy . . . July 64
Giant Iranian pipeline will boost export capacity—John Cranfield . . . July 82

**KUWAIT**

Associated gas use in Kuwait being expanded by KOC—David Buckman . . . Nov. 102
KSPC's Kuwait oil search enters a crucial phase—David Buckman . . . Dec. 54

**LIBYA**

Here's how Mobil automated its Libyan Amal field—Roy L. Johnson and John B. Cox . . . Mar. 40

Here's how Occidental conserves associated gas in its Libyan oil fields—E. T. Cozens . . . Aug. 34

**SAUDI ARABIA**

Big Saudi oiler gilds open tract . . . Feb. 43
Arabia gets new desert drilling gear . . . Sept. 76

# Far East

**BORNEO**

Attaka will top 100,000 b/d next year—John Cranfield July 42

**INDONESIA**

Batch of strikes revitalizes the Indonesian search—David Buckman . . . July 30
Java Sea boasts big store barge . . . July 32

**JAPAN**

Japanese seek oil nearer home . . . Jan. 75
IHI is building 800,000 ton dock . . . Mar. 64
Japanese plant treats slop oil . . . Apr. 40
New Japanese ethylene complex can yield 300,000 tons/year . . . Apr. 61
New Japanese waste water treatment method cuts costs at the refinery—Tohru Sasano . . . June 42
Ryukyu Islands refinery comes on stream—David Buckman . . . July 26
New Japanese process produces xylenes ethylbenzene cheaply—G. R. Herrin and E. H. Martel . . . July 74
Three new stack-gas desulfurization routes tried in Japan . . . Dec. 56
New Japanese processes promise cheaper stryene and xylenes . . . Dec. 64

**OKINAWA**

Big Okinawa expansion now under way . . . July 28

**SINGAPORE**

Singapore booms as Southeast Asia's refinery center—David Buckman . . . Apr. 56

# U.S.A.

World's deepest well nearing target depth—Jack A. Davis . . . Jan. 68
How the world's deepest well was drilled to 30,000 ft.—John Kennedy . . . June 63

# Maps

**WORLD**

Where offshore rigs are running . . . Dec. 31

**AFRICA**

Crude patch firms up north of River Congo . . . Apr. 52
*General . . . June Insert
Where Mobil is tapping oilfields off Nigeria . . . June 74

**AUSTRALIA AND NEW ZEALAND**

How Dongara gas is flowing south . . . Feb. 53
Where outback drillers are scoring . . . Sept. 75

**EUROPE**

Brigitta/Mobil pipeline system . . . Jan. 54
*Western Europe refining . . . Feb. Insert
Shell-Esso increases stake in northern waters . . . May 30
Where new awards crowd U.K. oil discoveries . . . May 32
French petroleum at the end of 1971 . . . May 81

Northern N. Sea scorecard so far . . . . . Oct. 72
How Forties oil will travel to market . . . . . Oct. 84
How Dutch, Russian gas will flow to Italy . . . . . Nov. 76
